

Sample Medical Report

Patient Information

Name: John Doe
Age: 45
Gender: Male
Date of Visit: 15 February 2026

Diagnosis

The patient reports mild chest discomfort and fatigue over the past two weeks. Initial examination suggests early-stage hypertension and elevated cholesterol levels.

Prescribed Medicines

Medicine	Dosage	Frequency
Amlodipine	5 mg	Once daily
Atorvastatin	10 mg	Once daily at night
Aspirin	75 mg	Once daily after meal

Doctor's Advice

The patient is advised to maintain a low-salt diet, engage in regular physical activity (at least 30 minutes of walking daily), and monitor blood pressure weekly. A follow-up appointment is recommended after one month.

Doctor: Dr. Ananya Sharma (Cardiologist)
Hospital: City Health Care Clinic
